PUBLICATION SCHEME

POLICY STATEMENT

The Parish Council is required by the Freedom of Information Act 2000 to adopt a Publication Scheme. The purpose of the scheme is to be a means by which local councils can make a significant amount of information available routinely, without waiting for someone to specifically request it. The scheme is intended to encourage local councils to publish more information proactively and to develop a greater culture of openness and transparency.

Lenham Parish Council has adopted the Model Publication Scheme. This scheme includes some core information and some optional information.

The information contained in each class will be available in a variety of formats.

The scheme commits an authority:

1. To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below.
2. To specify the information which is held by the authority and falls within the classifications below.
3. To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme.
4. To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public.
5. To review and update on a regular basis the information the authority makes available under this scheme.
6. To produce a schedule of any fees charged for access to information which is made proactively available.
7. To make this publication scheme available to the public.
8. To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public Model publication scheme Model publication scheme Version 1.2 20151023 2 authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19. The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act.
